STANLEY B. NOLIN.

The Arrangements for His Funeral Completed—Burial Sunday.

The public announcement of the death of this popular young man has cast a gloom over our city.

Peculiarly sad and distressing is his death. A young man just crossing the threshold of life's open door, when the sunlight of hope made his eyes merry with brightness, when the sweet breeze of ambition and ideals filled his mind with sweetest perfume—all cut off, the snipping frost of death prostrating his physical forces and mental powers, and laying in the grave all that made him esteemed of men and beloved by friends. But who shall try to solve? Who shall question?

"Oh, why should the spirit of mortal be proud! Like a swift flying meteor, a fast flying cloud, A flash of the lightning, a break of the wave, Man passes from earth to rest in the grave."

And as there is a God who rules with wisdom, mercy and love, let us respectfully bow and trust that in the great beyond, some day, some how, we shall our loved ones meet, and that to be reunited forever.

The last rites are the dust receives its own will be had in the Central Presbyterian Church Sunday afternoon at 4 o'clock. Rev. W. O. Cochrane officiating, the deceased being a member and Vice-President of this Church's Y. P. S. C. E. and his Church membership being with the Church of the Disciples.

The pall-bearers will be six young men friends of the deceased, who will tenderly and tearfully bear all that is mortal of their associate—and companion to our beautiful, hallowed City of Rest just as the sun sinks down to close the sacred day.

The funeral services at the Church will be public, the burial private.

CHAPLAIN OF PENITENTIARY.

It Falls to Rev. E. L. Shepard of the M. E. Church, This City.

THE LEADER some weeks ago announced that it was highly probable that the Rev. E. L. Shepard of the M. E. Church, this city, would receive the appointment of Chaplain of the Penitentiary at Frankfort.

Yesterday the selection was made by the Sinking Fund Commissioners, as indicated by the following telegram from State Treasurer Long:

FRANKFORT, April 24th.

Rev. E. L. Shepard: You win. Come and arrange for house at once.

G. W. Lono.

Rev. Shepard and Treasurer Long are old acquaintances, and the appointment grew out of the fact that the Board was undecided between the formal applicants for the place, when Mr. Long suggested a settlement by offering the name of Mr. Shepard.

The position pays \$1,200 a year, and will necessitate the resignation of Mr. Shepard as Pastor of the Church here and his removal to Frankfort.

During the short time of his residence in this city Mr. Shepard has made many friends who will regret to see him leave.

STORM SWIFT.

Maysliek Visited Friday By a Terrible Gale.

SOME DAMAGE ELSEWHERE.

Friday just after noon there were promising indications for a terrific storm in this city, but, fortunately, the clouds veered and we escaped their fury.

To the South and East of us, however, the elements did much damage—just how much cannot be learned with accuracy, as the telephone lines were down and communication with the outlying districts was cut off.

Our information from Maysliek is that the bell and belfry of Guilfoyle's Hotel were blown from its street.

The walls of a brick addition to William Worthington's house, being built by Mr. John Day of this city, were considerably sprung.

A minaret was blown from the Presbyterian Church.

Fruit and forest trees were prostrated by hundreds.

And light buildings and roofs in the path of the tornado were scattered for four winds.

So far as learned there was no loss of life and no personal injuries.

At Orangeburg and in that neighborhood there was a terrific hailstorm, doing great damage to growing crops and vegetation.

In the neighborhood of Forman's Springs the rain was unusually heavy, but no material damage resulted.

Try Dr. J. W. Carmel, Dentist, Second street opposite State National Bank.

Hechinger & Co. have just opened their line of Hopkins Straw Hats, and they are dandies.

A Lancaster man made his parents-in-law for \$10,000, because, as he alleges, they took his wife from him.

Why send away for Screens when you can get them made at home promptly by MAYSVILLE MANUFACTURING CO.

Major William Horabuckley died in Group county of paralysis after an illness of six weeks, aged 96. He was one of the oldest citizens in the county, and was well and favorably known.

Bunt Thomas, who rode into town Thursday on a \$100 bike which he had stolen, was heard in the Police Court yesterday and Judge Wadsworth remanded him to Fayette county for trial. Chief Ott took him to Lexington this morning.

Let us show you our new line of Leather and Tinsel Belts. Entirely new. Prices low down. My price of Gold Watches is the largest cut in the city. My prices are the lowest.

BRAND-NEW WRINKLE.

A Complete Telephone System in the St. Louis Convention.

When the National Republican Convention meets in St. Louis on June 16th to nominate a President and Vice President of the United States the Delegates will witness an innovation in the handling of big conventions. It is a scheme proposed by the Bell Telephone Company, through its Local Manager, George F. Durant. The proposition is something entirely new and original. Although it has not yet gone before the Sub-committee having charge of the Convention arrangements, it is said to be practically assured that it will be adopted.

It is to connect the various state delegations with the Speaker's desk by telephone, so that the Chairman may know the name of every man who is recognized and thus be enabled to announce his name to the Convention. The telephone scheme, it is claimed, will do away with the annoyance and loss of time that has so long been a source of worry to the Managers of National Conventions. The detail of the plan proposed does not differ from the system of room to room telephoning in vogue in the

large hotels. There will be a central office back of the Speaker's stand and from there an operator will connect the various delegations with the Chairman of each, as the case may be.

The other arrangements for giving the news to the outside world by telegraph will be the finest and most complete ever attempted at a National Convention.

In order to be able to handle the great press of business, the Western Union Company is stringing six new copper wires from St. Louis to Chicago and four from St. Louis to New York. This will give that city the best telegraphic connection with the outside world it has ever had. About fifty loops will be run into the hall. The Postal Company is also making preparations for the Convention. Three new copper wires are being strung between St. Louis and Chicago and two more from there to New York direct.

amounted to \$24,104,750. On the other

hand the imports of articles of food

which paid a duty in 1896 were more

than treble the amount on which a duty

was collected in the last fiscal year of

the McKinley Law. The articles under

these classifications include breadstuffs,

chemicals, cocoa, tea, coffee, sugar, rice,

salt, provisions, fruits, spices, and, and

are thus all of them of a class which

the masses must have. Yet the new law,

which professed to be framed in the in-

terest of the masses and to reduce the

burdens of tariff taxation, has cut down

by nearly one-half the articles of this

free duty class which can be imported

free of duty, and trebled those which

are compelled to pay duty.

Still the collection of customs under the

new law amounts to only \$164,501.

326, while those of the McKinley Law

amounted to \$184,097,570 in its first

fiscal year and \$109,373,453 in its second

fiscal year.

a report just issued

by the Treasury De-

partment covering

the operations of the new tariff law

in detail during the year 1905. This

makes it possible to compare its work

with that of the McKinley Law in a

corresponding period. The result is

very discouraging to the friends of the

new law. It shows that during the

year 1905 the Democratic tariff law,

which professed to give the people of the

country their goods free from tariff ex-

actions, actually collected duty on 82

per cent. of the goods which were

brought into the country, while the

McKinley Law in its last fiscal year

collected duty on 41 per cent. of the

goods brought in. In other words, under

the McKinley Law the people got prac-

tically 60 per cent. of their imported

goods free of duty, while under the Wil-

son Law they are getting but 48 per

cent. free of duty.

The increase of importations of dutiable

goods is something enormous, says

The American Economist, while the free

importations have not increased. The

total importation of dutiable goods dur-

ing 1905 was \$416,353,567, while the total

importation of goods paying duty in the

last fiscal year of the McKinley Law

amounted to only \$357,645,702. Thus

the new law largely increases the amount

of dutiable goods brought into the

country, but gives the people no more

free importations than did the McKin-

ley Law. Another remarkable development

in this showing is that there is a great

falling off in the importation of articles

of food free of duty, while the articles

of food which must pay duty have enor-

mously increased. The articles of food

imported free of duty in 1905 amounted

to only \$122,022,399, while those of the

same class imported free of duty in the

last fiscal year of the McKinley Law

NEWPORT, Ky., April 25.—Friday morn-

ing the cross-examination of Allen Johnson

continued. The defense failed to break down

the testimony wherein the colored porter said

that Earl Ryan was at Wallingford's saloon

with Jackson on the night before the murder.

Mrs. Ryan was recalled and spoke of Earl's

confiding nature and inexperience in the ways

of the world.

The prosecution put L. D. Pook, the New-

"I shall tell you in my own words."

"I object," exclaimed Col. Crawford. "I

propose we are now to hear a supposed con-

section in the first Greenleaf?"

The reader of this paper will be pleased to learn that there is at least one dandruff cure that science has been able to cure in all its stages, and that is Catarrh. Hair's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hair's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for full testimonials. Address, J. C. F. The Benis Tobacco Setter.

On the market, and stood the test during the dry season of 1896 where its competitors failed. A practical machine that saves farmers on simply common tobacco and will last a lifetime if properly cared for. Makes its own season, dries tobacco out faster and more uniform than hand planing. Will make its price every year in a small crop.

See what the largest grower in the state says about it:

"This is to certify that I have used three different Tobacco Transplanting Machines upon my farm, and that I find the plants live so much better after the Benis-Tobacco Setter than after any other. This opinion is formed from working all of these machines during the entire season of 1895."

Every machine fully warranted to do satisfactory work in the field or no sale. To secure one of these machine orders must be placed early. For sale by
